March 18, 2020

All customers, patrons, and employees:

The health and safety of our customers and staff is our priority during these times. Due to concerns about COVID-19 we are asking that all customers do as much of their business as possible via phone or email. At this time we will maintain normal business hours but we will continue to evaluate the situation as it unfolds. Our locations serve as a social and community setting, but based on CDC guidelines and relevant data, we are limiting interactions to necessary business only. We apologize for this inconvenience but the safety of our customers and employees is our utmost concern. We also ask that all customers and employees keep their social spacing based on CDC guidelines when possible. Thank you for your help with this situation and if you have any questions or concerns, please contact any of our locations. Thank you.
